Dear Parents/Guardians:

Ozark Mountain School District is a Provision 2 school district. What this means for you and our students is that you will not be charged for our student meals. The district will cover that cost using Enhanced Student Achievement (ESA) Funds.

It is not required that you fill out the meal application, but it is recommended. Should you choose to do so, please return it to the school as soon as possible.

Ozark Mountain School District is going to offer ala carte items to students in the upper grades. Students who wish to purchase these items may do so as they come through the lunch line. They are to pay for the items at that time, or you may send money to be placed on their accounts in advance. Ala carte items may not be charged to their accounts.

If you have any questions I have listed the contact information for each campus below. Please feel free to contact me or one of the other people listed.

Sincerely,

Denise Turney
Child Nutrition Director
