2026
ELECTION
March 3rd

An election to request a
reduction in the tax rate
from 36.5 mills to 34.0 mills.

OZARK MOUNTAIN
SCHOOL DISTRICT

**2026
Election
and
Millage
Information**

(Q) When is the 2026 Election?

(A) The 2026 Election will be held March 3, 2026

(Q) Is there a request for a change in the total millage rate?

(A) Yes, the District is requesting to replace the 11.5 debt mills with 9.0 maintenance and operations mills. The total rate would decrease from 36.5 mills to 34.0 mills.

(Q) Is there a request for extension of existing debt millage?

(A) No, the existing debt mills would be eliminated and the District's remaining debt would be paid off early.

(Q) How does the District compare to the State Average?

(A) The State average as of the 2024 election is 39.2 mills.

(Q) When was the last change in the Ozark Mountain School District millage rate?

(A) In 2008, voters approved a millage increase from 33.6 to 36.5 total mills to support a bond issue.

(Q) What is the purpose of the proposed millage change?

(A) If voters approve the proposed rate of 34.0 mills, which is a 2.5 mill decrease from the current rate, then the District will be able to pay off the remaining balance on the District's bond and exchange the 11.5 debt mills for 9.0 maintenance and operations mills.

If approved, the District will not have any outstanding debt or debt millage. Any future bond issues would first require voter approval.

(Q) What is the amount of property tax due on the proposed 34.0 total mills, and what is the difference per year and per month from the current 36.5 total mills?

(A)
